port upon the project to these Councils; and directing the Clerks of Councils to present this resolution to the Mayor for his approval.

Whereas, The Bureau of Surveys has made certain preliminary investigations as to the desirability and feasibility of widening Race, Eighth, Locust and Streemsh streets to form a Courtal Traife Circuit for the relief of traffic conditions and to encourage the enlargement of the general business area in the centre of the Whereas. The congestion of traffic in the central part of the City is constantly increasing, and will continue to do so in preportion with the expansion of commercial, industrial and business activities, with the result that there will be a creat economic loss in transportation and business due to lack of adequate and convenient routes for travel, and a largely increased cost for traffic regulations, unless traffic areas are increased; and

Whereas, The widening of Locust street, which will form a part of the circuit, has been strongly urged by the Philadelphia Board of Trade and other organizations, and the entire Circuit is recommended by the Fermanent Committee on Comprehensive Plans in a report recently made to the Mayor; therefore be it Resolved, By the Select and Common Covincils of the City of Philadelphia, That the Deartment of Public Works (Bureau of Surveys) be authorized to make further investigations, and estimates of cost for the establishment of a Contral Traffic Circuit, to be formed by the widening of Race, Righth, Locust and Sixteenth streets, and to suggest a method of carrying the said project to completion, including its financing and the work of opening and construction, and to report the same, together with such other facts and data relating these to as may be of value in its consideration, to these Councils.
